

# 3. Driver for change: governance and compliance

Older applications often lack the controls and security necessary to protect and minimize data, or to comply with long-term statutory retention periods.

We can help you improve compliance and business efficiency

How secure and compliant are your systems?

## THE ISSUES

- ✗ Systems lack the security levels to limit access to sensitive data
- ✗ Applications aren't compatible with access mechanisms such as multi-factor authentication
- ✗ Difficult to protect data and comply with statutory retention periods at the same time

Our application decommissioning solution can help

## THE BENEFITS

- ✓ Data is encrypted and stored securely in our information management system
- ✓ Provides secure and controlled access to sensitive information
- ✓ Supports data governance and compliance, including timely data deletion

INEFFICIENT PROCESSES
